

Managing Telematics Data

Agenda

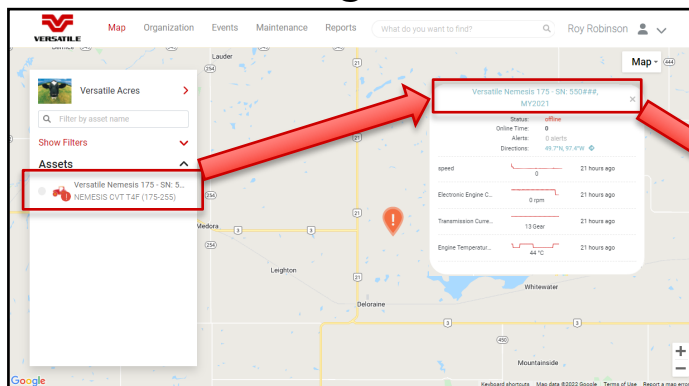

- How Can I Access My Telematics Data?
- How Do I See My Tractor's Current Location and Condition?
- How Do I Reorganize The Info On A Tractor Dashboard?
- How Can I See My Tractor's Usage History?
- Where Do I Find My Tractor's Fault and Alert History?
- Where Can I View My Tractor's Maintenance History?
- Where Can I View My Tractor's Geofence Alert History?
- How Do I Review My Farm and Authorized Users' Details?
- What Happens To My Data When My Subscription Expires?

How Can I Access My Telematics Data?

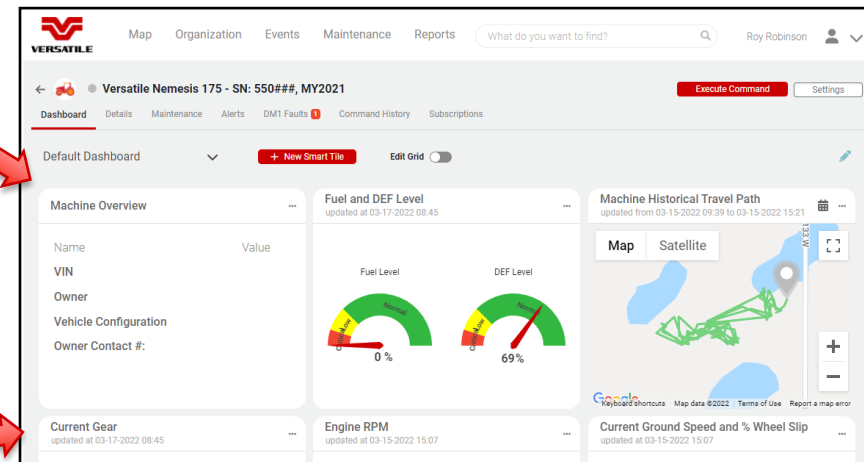

- The Telematics Portal is accessed through your favorite web browser
 - Chrome
 - Internet Explorer
 - Microsoft Edge
 - Safari
- The Portal can also be accessed using your smartphone
 - iOS based phones and tablets using a mobile web browser
 - Android based phones and tablets using a mobile web browser
- Main types of data that you can manage in the Portal
 - Tractor current location and condition
 - Tractor usage history
 - Tractor Fault and Alert history
 - Tractor Maintenance history
 - Your Farm and Authorized Users' details
 - Tractor Geofence Alert history

How Do I See My Tractor's Current Location and Condition?

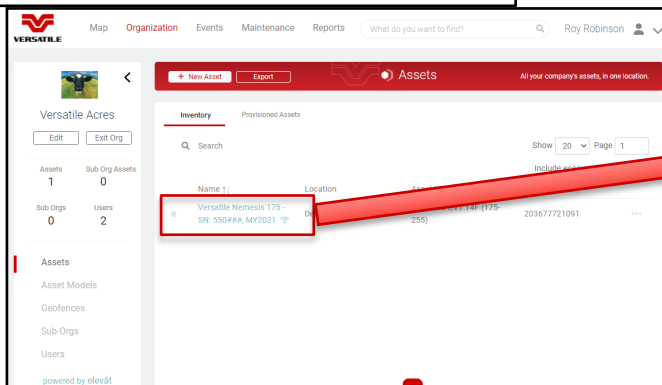

- A basic overview of where all your machines are, if they are active, and key info about them can be found in one place: the Map Screen
- For more details, click on the tractor on the map, or on the Asset Lists on the Map and Organization Screens

Map View With Tractor Selected

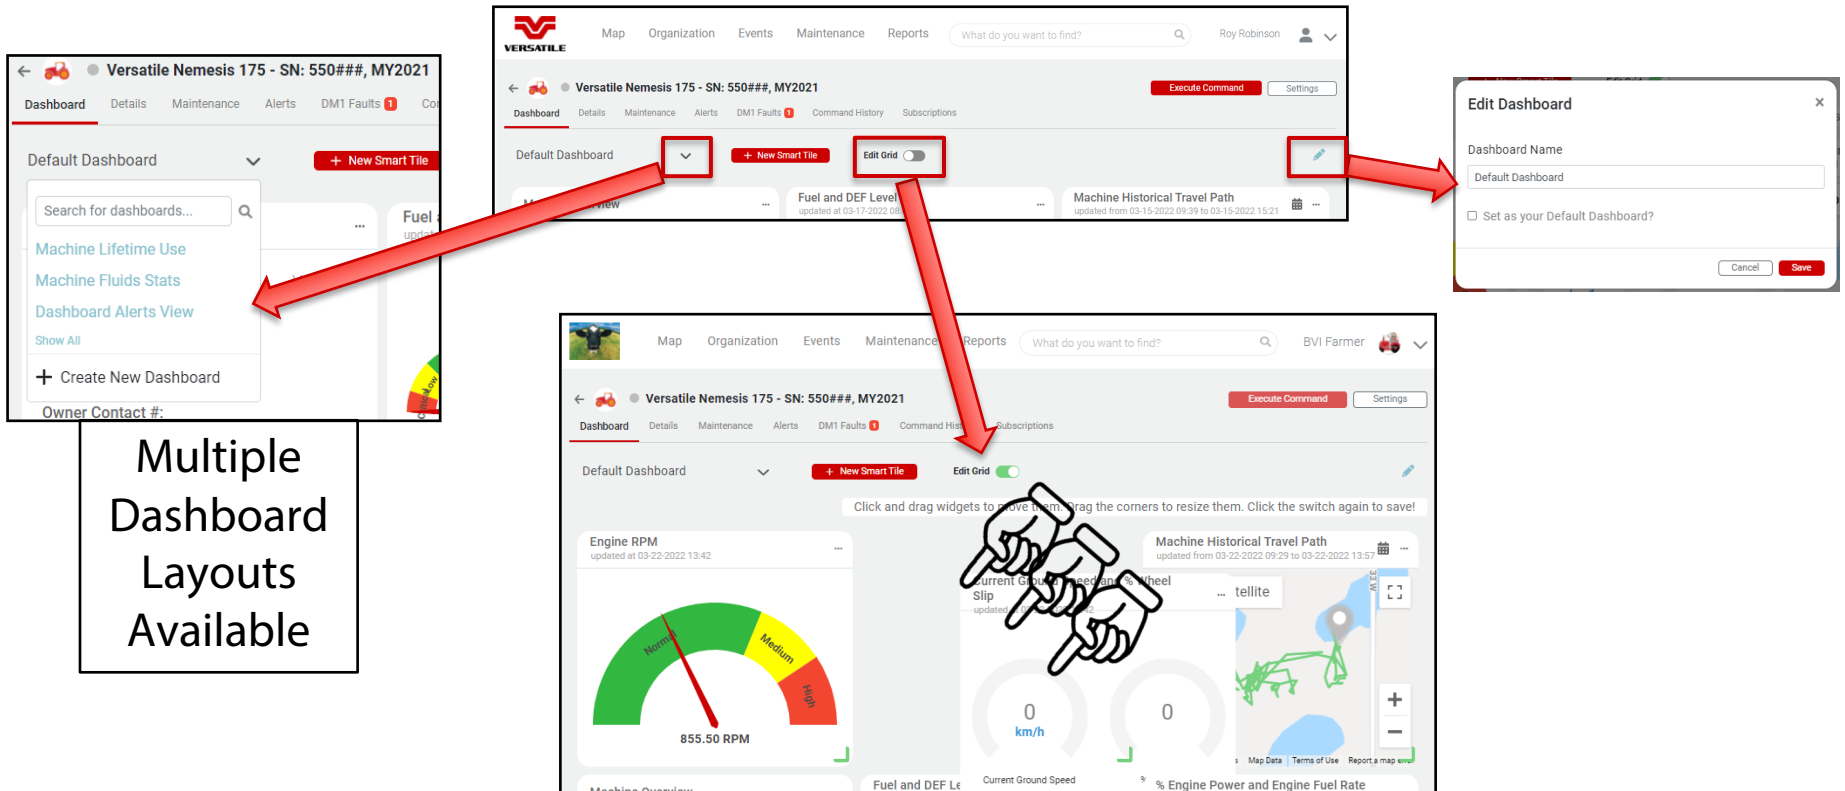

Example Dashboard View

Organization->Assets List

How Do I Reorganize The Info On A Tractor Dashboard?

- Users can customize the Tractor Dashboards in a couple of ways
 - Reorganize the location Widgets on a Dashboard to bring the most important ones to the top
 - Select between different Dashboards in the dropdown menu
 - Rename a Dashboard, and select if it is the default Dashboard for that tractor

Multiple Dashboard Layouts Available

The image illustrates the process of reorganizing tractor dashboard information through three sequential screenshots:

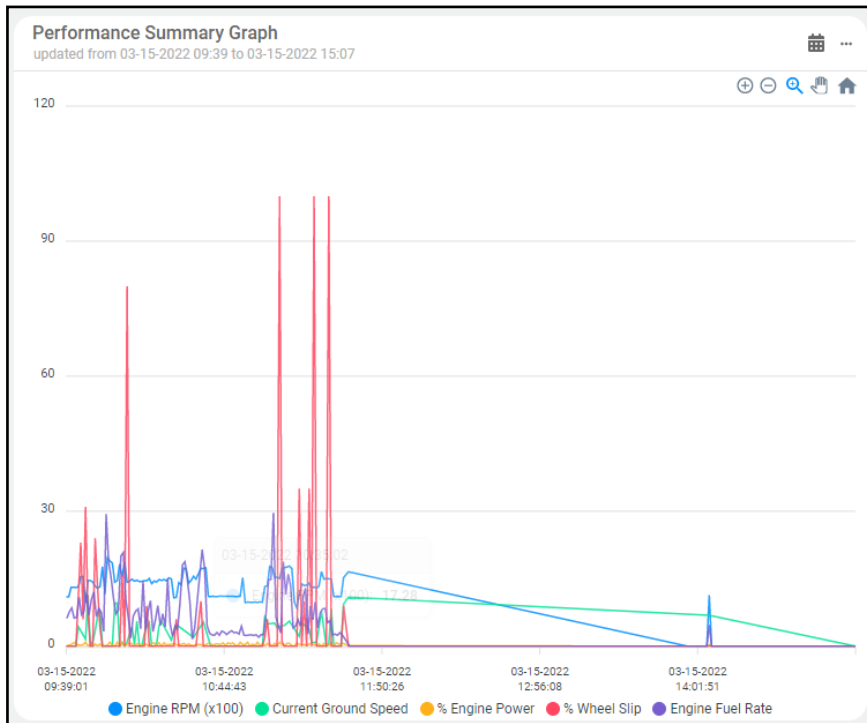

- Top-Left Screenshot:** Shows the 'Default Dashboard' dropdown menu. A red arrow points from the dropdown in the middle screenshot to this menu. The menu includes options like 'Machine Lifetime Use', 'Machine Fluids Stats', 'Dashboard Alerts View', and '+ Create New Dashboard'.
- Top-Middle Screenshot:** Shows the main dashboard interface with a dropdown menu for selecting a dashboard and an 'Edit Grid' toggle. A red arrow points from the dropdown in the middle screenshot to this menu, and another red arrow points from the 'Edit Grid' toggle to the 'Edit Dashboard' modal.
- Bottom Screenshot:** Shows the dashboard with widgets being reorganized. A hand icon indicates the user is dragging a widget. A red arrow points from the 'Edit Grid' toggle in the middle screenshot to this action.

The 'Edit Dashboard' modal (top-right) allows users to:

- Change the 'Dashboard Name'.
- Select 'Default Dashboard'.
- Check 'Set as your Default Dashboard?'.
- Click 'Cancel' or 'Save'.

How Can I See My Tractor's Usage History?

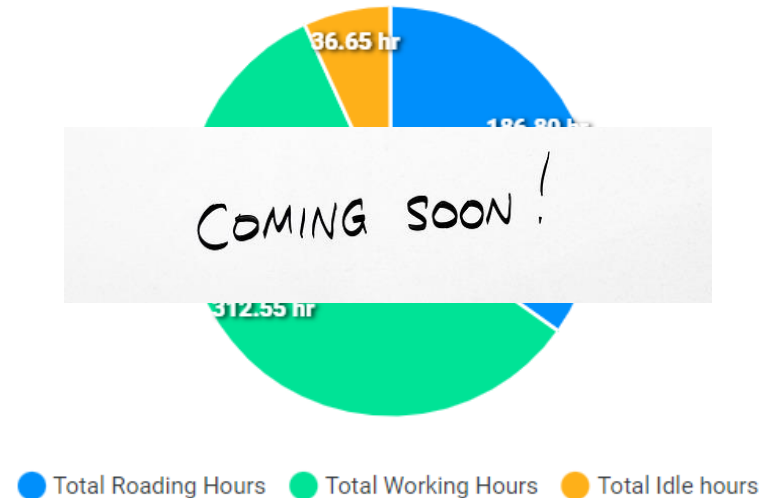

- Several of the Widgets on the Dashboard will provide you history of your machine's performance
- Key examples include travel path, engine speed, travel speed, and many more

Example History Widget

Usage Pie Chart On Dashboard

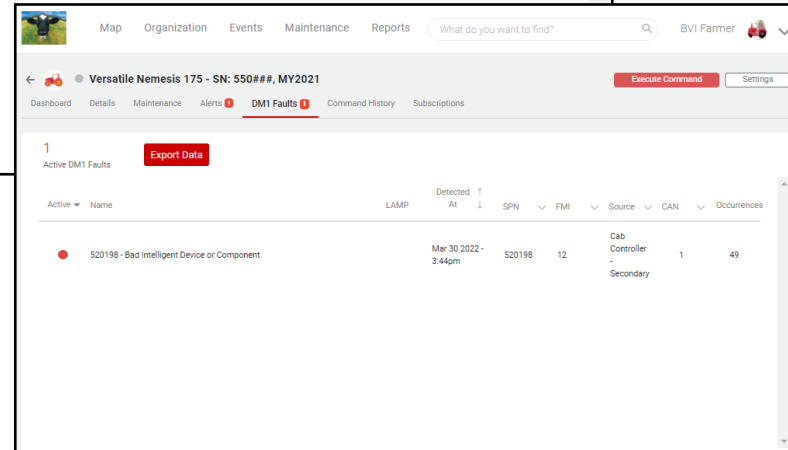

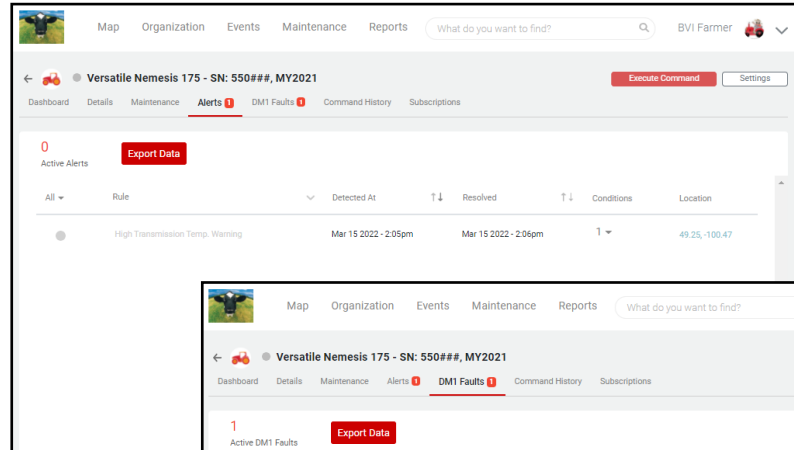

Lifetime Use

Where Do I Find My Tractor's Fault and Alert History?

- There are two ways to get to your tractor's Fault/Alert History
 - Using the tabs as the top of the tractor Dashboard Screen
 - Viewing your entire fleet's Fault/Alert history in the Events Menu
- These screens allow you to search for past Faults/Alerts, and see a count of occurrences

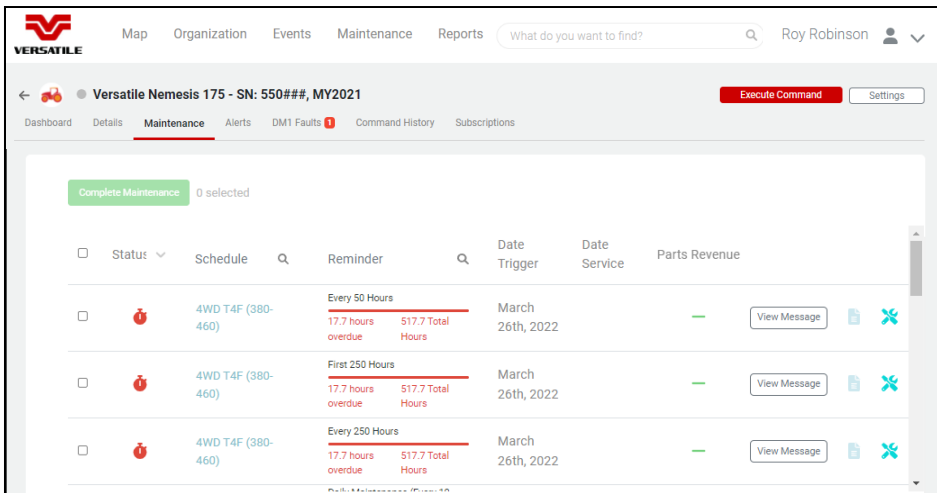

Events Menu->Faults/Alerts

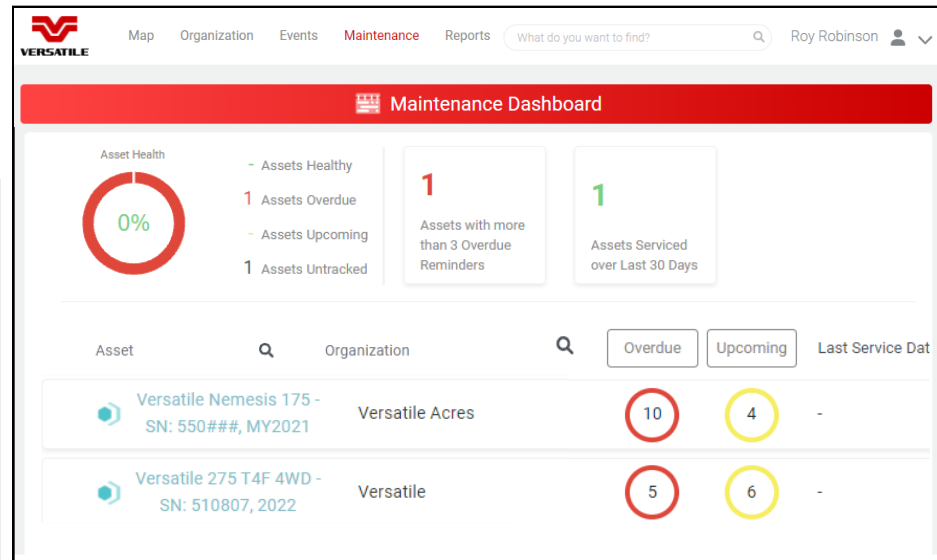

Tractor Dashboard->Faults/Alerts

Where Can I View My Tractor's Maintenance History?

- As with Faults/Alerts, you can see your equipment's maintenance in two different ways
 - Specific maintenance history for a tractor in the Tractor Dashboard
 - The stats for your entire fleet in the Maintenance Menu
- This allows you to monitor that your machines are being taken care of properly, and on time

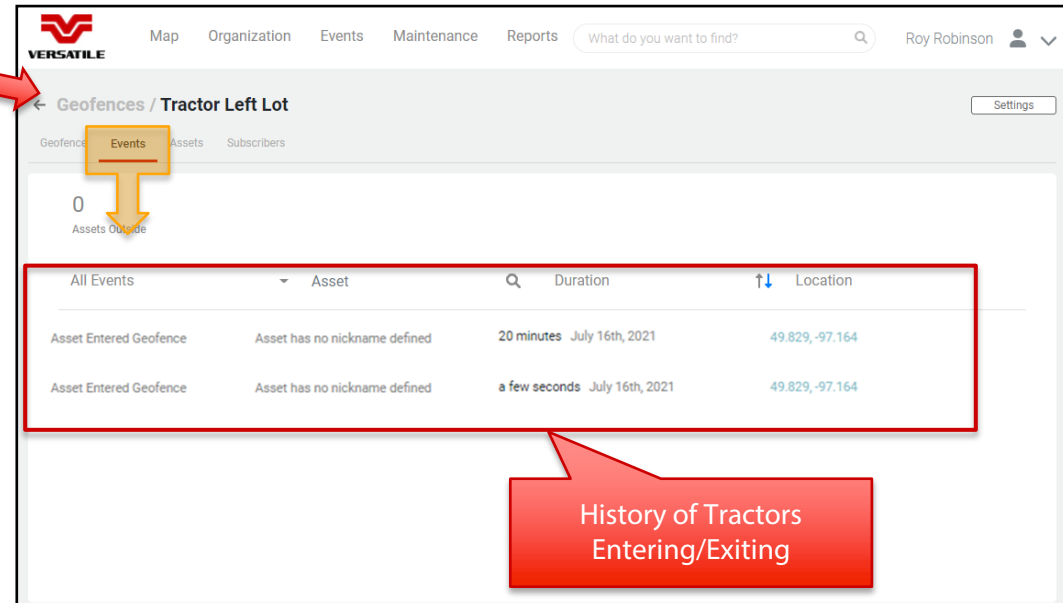

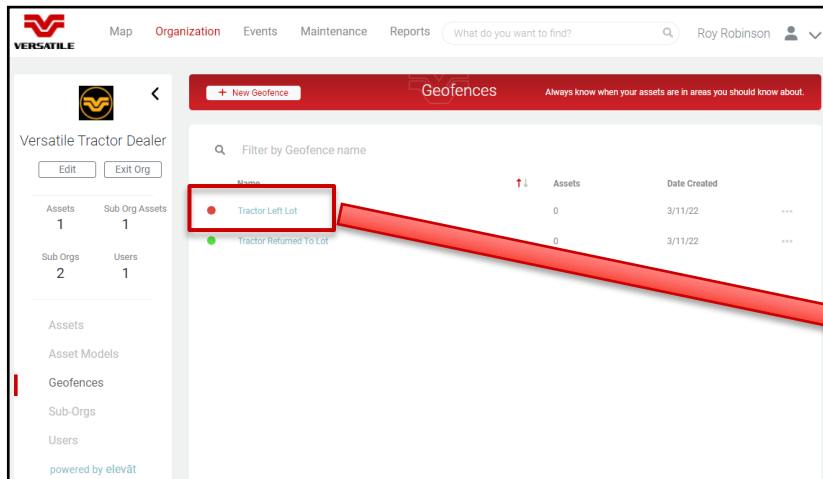

Dashboard->Maintenance

Fleet Maintenance Menu

Where Can I View My Tractor's Geofence Alert History?

- All the Geofences that you have on your farm are listed under Organization->Geofence
- By clicking on a Geofence, you can see all the details about it, including the history of any exits/entrances

How Do I Review My Farm and Authorized Users' Details?

- Your own profile can be updated through the link in the Help Menu
- For employees, update their info from the Organ.->Users menu
- Your Farm's info can be updated with the Edit button below your Farm Name in the LH Organization Menu

The screenshot shows the 'Users' management page for 'Versatile Acres'. The table lists two users:

First Name	Last Name	Email	Phone	Access Level
BVI	Farmer	bvifarmer@gmail.com	2043910484	Read Only
BVI	Hiredhand	bvihiredhand@gmail.com	2043910484	Read Only

What Happens To My Data When My Subscription Expires?

- When your subscription expires, you have a few options
 - Renew your subscription
 - Ask for a download of your personal data and then ask for your personal data to be erased
 - Ask for your personal data to be erased
 - Let your account go dormant, and within one month your data could be erased for you
- If your data is erased, there is no guarantee that it is recoverable
- For more details, refer to the training on the telematics Terms and Conditions as well as the Telematics Privacy Policy
